HIGH-END STEREO MUSIC SYSTEM WITH CD PLAYER AND VALVE RECEIVER

The high-quality Magnat M 700 stereo system is made up of two high-end modules: The MCD 750 CD player and the MR 780 hybrid valve receiver form an exceptional unit.

Magnat

AUDIOPHII F SOUNDS THANKS TO TUBE PRE-AMP.

The MR 780 stereo receiver follows the unique Magnat hybrid concept: Operating in the pre-amp stage are two selected, burnt-in ECC 81 valves, which provide the entire system with the warm, audiophile sounds so acclaimed among hi-fi fans. The powerful, discretely designed transistor output stage produces 100 watts of RMS power per channel at 4 ohms.

HUGE RANGE OF CONNECTIVITY OFFERING MAXIMUM FLEXIBILITY.

Signals are received by the stereo receiver via 5 high-level inputs or 2 optical and 2 coaxial digital inputs. There is also a 3.5 mm jack input available at the front for mobile devices. Even more convenient is the direct wireless connection via Bluetooth 4.0 with aptX. The broad range of connection options on the MR 780 is rounded off by a particularly high-quality phono pre-amp stage for MM systems as well as a USB audio 2.0 input.
