

POWERED HOME CINEMA SOUNDBAR WITH WIRELESS SUBWOOFER, WLAN-AUDIO-STREAMING, BLUETOOTH® AND HDMI®

POWERED HOME CINEMA SOUNDBAR WITH WIRELESS SUBWOOFER, WLAN-AUDIO-STREAMING, BLUETOOTH® AND HDMI®

- Audio streaming via WLAN and Bluetooth®
- Music services can be streamed to the soundbar via mobile phone or tablet via Bluetooth® in top quality with the latest high-end audio standard Qualcomm® aptX™
- WLAN technology for multi-room experience with all Qualcomm® AllPlay™- compatible speakers (control via free Qualcomm® Jukebox and AllPlay™ radio apps)
- Dynamic home cinema sound due to a total power of 360 watts and 10“ wireless high-performance subwoofer with integrated high-power amplifier
- Elaborately equipped soundbar with 4 midrange drivers, 2 tweeter domes and a powerful four-channel digital power amplifier
- Authentic home cinema experience thanks to a 3D surround sound program, digital sound processor and Dolby Audio™ decoder
- Numerous connections: WLAN, Bluetooth®, 4 x HDMI® for direct connection to a TV or other AV devices, 1 x optical digital and 1 x analog
- Easy to install via HDMI®-ARC and with HDMI®-CEC for comfortable control via TV remote control
- Control via the included remote control or directly on the device, the 5-digit front display shows all information
- Slim soundbar with a sturdy wall bracket, perfect for TVs from 42“ to >65“

WLAN COMBINED WITH VIRTUAL SURROUND SOUND.

Fully-fledged, dynamic home cinema sound from a slim soundbar and a wirelessly controlled high-performance subwoofer. Operation is via the remote control provided or the function keys on the side. In a few simple steps, the CSB 1000 can be integrated into the existing WLAN and controlled using the Qualcomm app.

PERFECTLY INTEGRATED LED DISPLAY.

The LED display for the status indicator is located unobtrusively behind the soundbar speaker grille. The easy-to-read display shows the user the signal source that has been selected.

PREPARED FOR WALL MOUNTING.

The particularly slim soundbar can be incorporated into any living room surroundings thanks to the wall bracket provided. There is a convenient wireless connection to the subwoofer, meaning that it can be placed wherever you want.

EXTENSIVE FEATURES, INCLUDING HDMI.

The CSB 1000 Soundbar is, of course, equipped with HDMI, including Audio Return Channel (ARC). Three additional UltraHD-compatible HDMI inputs and an optical digital input offer a high degree of flexibility for connecting other devices. Audio signals can also be fed to the soundbar via Bluetooth®.

CHARACTERISTICS:

- WLAN network connection, control via free Allplay Jukebox app for iOS and Android
- Supports Qualcomm® Allplay™ streaming
- Easy to install due to numerous inputs, can be connected directly to the TV due to HDMI®
- Dolby Audio™ decoder (for HDMI® and digital input)
- HDMI® with ARC and CEC function (Soundbar can be controlled via TV remote control)
- 3 additional HDMI® audio/video inputs with loss-free video repeater function, ultra-HD compatible (4K)
- Bluetooth® with the latest high-end audio standard “Qualcomm® aptX™” ensures the transmission of CD-quality music
- Perfect integration in the living room through the slim soundbar with a sturdy wall bracket and compact subwoofer
- Realistic, DSP-controlled 3D surround sound for movies and music
- Additional bass and treble controls (via the menu) for optimum sound adjustment
- Adjustable subwoofer level
- Night mode with reduced dynamic for use at volume-sensitive times
- Entirely controlled through the system remote control
- Easy-to-read LED info-display on the front panel

TECHNOLOGY:

Soundbar

- Two high-quality stereo 2-way systems with 2 dome tweeters and 4 midranges
- 4-channel power amplifier (separate amplifiers for tweeter and midranges) with digital filtering for best dynamic and sound quality
- 5-digit alphanumeric LED display
- Basic functions can be controlled via a lateral panel
- Sturdy plastic cabinet ready for wall-mounting
- Low standby power consumption

Subwoofer

- Separate powered sidefire subwoofer with powerful 10“ long-throw
- Digital signal transmission from the soundbar to the subwoofer (5.8GHz-Standard)
- Air-flow optimised bass reflex opening on the front
- Elegant and compact cabinet design
- Sturdy wooden MDF cabinet
- Low standby power consumption

CONNECTORS/INPUTS:

- WLAN input for integration in the home network
- HDMI®-ARC input for direct connection to the TV
- HDMI®-CEC function: Control via TV remote control (if the TV supports this function)
- 3 additional HDMI® audio/video inputs with video repeater function up to 4K resolution (the video signal is output to the HDMI®/ARC port)
- Optical digital input
- Analogue input (3.5 mm jack)
- Bluetooth® with Qualcomm® aptX™
- Separate power supply for the Soundbar
- Various connecting cables included
