i-Connect PlugX

MHL adapter cable, micro USB to HDMI

Oehlbach adapter cables for MHL*-capable multimedia devices (MHL 2.0). The adapter allows HD-capable devices to be connected to HDMI connectors on HD-TV equipment. This cable allows you to experience images and videos from smartphones, tablets and cameras – loss-free and in full HD quality – on televisions and PC screens. The high-quality i-Connect PlugX is HDCP-compatible and – with a video resolution of up to 1080p – is state-of-the-art where the transmission of digital signals is concerned. It also supports eight-channel digital audio and therefore transmits 7.1 surround sound. Your mobile device will be automatically charged when it's connected to an MHL-capable HDMI interface – you don't need an additional mains adapter. Oehlbach's i-Connect PlugX comes in an absolutely high-quality build and its very flexible sheathing makes it particularly suitable for everyday use. *MHL = Mobile High Definition Link
