

QUALITY ★★★★★

XXL® Powercord

High-end mains cable with 4 mm² inner conductor diameter and 2-fold shielding

The Oehlbach XXL® Powercord high-end mains cable guarantees absolutely stable power supply without any external interference. The HPOCC inner conductors have a generous 4 mm² cable diameter as well as 2-fold OFC copper braiding and aluminium foil shielding. Thanks to the fabric sheathing, the power cable is perfectly protected and is also very flexible. The Schuko plug and the heating appliance socket are fitted with 24 carat gold-plated contacts to guarantee absolute signal and contact stability at all times.

Features

- ✓ HPOCC® - mono-crystalline oxygen-free copper inner conductor
- ✓ 24- carat gold-plated contacts
- ✓ double shielding
- ✓ highly flexible cable
- ✓ Reliable contact
- ✓ HPOCC inner conductor with a generous 4 mm² cable diameter for live and neutral
- ✓ High-quality 2-fold OFC copper braiding and aluminium foil shielding
- ✓ Guarantees stable power supply without any external interference

Technical Data

Mounting	4mm ² HPOCC inner conductor (live and neutral) 2-fold copper braiding and aluminium foil shielding
Nominal voltage	250 V
Rated current:	10/15A
Plug diameter	30 mm (C15) - 40 mm (CEE7/7)
Diameter	14.0 mm
Cable sheathing	fabric sheath

Designation	Art. No.	Unit	Colour
