

Magnat

Sounddeck 160

POWERED HOME CINEMA SOUND DECK WITH INTEGRATED SUBWOOFER, BLUETOOTH® AND HDMI® FUNCTIONALITY

OPTIMUM SOUND FOR THE TV

The sound that accompanies a film accounts for 50 percent or more of the overall experience, which is a well known fact. Most televisions, however, sound rather modest. A soundbar is often recommended as an audio alternative. Depending on the placement options available, however, a sound deck can sometimes make a lot more sense. Especially when it's a fully-fledged model like our Magnat Sounddeck 160.

SOUNDBAR OR SOUND DECK?

In terms of acoustics, the Sounddeck 160 naturally offers significantly more volume than a typical soundbar due to the depth of its housing. In addition, we have also provided the sound deck with an ultra-sturdy MDF housing, which means it is in no way inferior to classic speakers. This makes the sound fuller and more authentic and optimizes the all-important vocal reproduction.

HDMI AND BLUETOOTH® CONNECTIVITY

Can a sound deck also be used as a Bluetooth® speaker? Yes of course. Smartphones, tablets and notebooks can be connected via Bluetooth, meaning maximum sound quality can be reproduced for these devices as well. The Sounddeck 160 is therefore capable of replacing a complete system in your living room or bedroom.

SMARTPHONES, TABLETS AND NOTEBOOKS CAN BE CONNECTED VIA BLUETOOTH, MEANING MAXIMUM SOUND QUALITY CAN BE REPRODUCED FOR THESE DEVICES AS WELL.

There is, of course, a lot of technology accommodated in the elegant, 70 cm wide housing of the Sounddeck 160.

With two tweeters, four mid-range speakers and an integrated subwoofer, it conjures up room-filling sound in the living room.

The elegant, velvety black body provides a solid base for TV sets of almost any size.

Sturdy feet not only provide a secure footing, but also prevent resonance from occurring.

POWERED HOME CINEMA SOUND DECK WITH INTEGRATED SUBWOOFER, BLUETOOTH® AND HDMI® FUNCTIONALITY

- Fully-fledged and dynamic home cinema sound from a single loudspeaker system
- Very easy to install thanks to numerous inputs; HDMI® allows direct connection to the TV
- Dolby® digital decoder (for HDMI® and digital input)
- HDMI® with ARC and CEC function (Sounddeck can be controlled via TV remote control)
- Bluetooth® with latest high-end audio standard „aptX™“ ensures the transmission of CD-quality music
- Perfect integration into the living room as a flat base under flat-screen TVs
- Solid MDF housing carries TV sets of all standard sizes
- Realistic DSP-controlled 3D surround sound for music and movies
- Three equalizer presets for an optimum reproduction of music, movies and enhanced speech intelligibility
- Night mode with reduced dynamic for operation at volume-sensitive times
- Remote control of all functions
- Easy-to-read LED info display on the front panel
