

MW-10

The Magic MW subwoofers have been called the *price/performance miracle*. Even though they are the entry level subwoofer models in the Dynavoice line up the performance is truly impressive. Thanks to the down firing reflex port, the dynamic of the rumbling low frequencies is enhanced to further the impact if used in a home theatre and the light polypropylene cone with an enlarged surround makes it equally perfect in a stereo setup.

MW-10

Driver	10"
Amplifier	Class A/B
Amplifier power	180W RMS / 250W MAX
Frequency response	30Hz-180Hz
Crossover	40hz-180Hz
Crossover Slope	12dB / octave
Phase control	0/180°
Enclosure material / type	MDF / Down-firing Bass-reflex
Inputs	RCA, LFE, High-level
Features	Volume, 0/180 phase, Auto-on
Dimensions (WxHxD) mm	295 x 399 x 399
Weight kg	14,2
Finish	Available in Black, White

Custom woofer – The polypropylene cone is light weight making the response high, and the enlarged surround together with the steel frame and ferrite magnet produces a linear, powerful stroke with minimum distortion.

Heavy duty cabinet – Reinforced and braced MDF with down firing slot type bass reflex port.

Fully featured – RCA, LFE, High-level inputs, Auto-ON, adjustable crossover and phase switch.

Class A/B amplifier – Combining Class A and B amplifier circuitry results in a high-power efficiency and low distortion.

In the box – The MW subwoofer includes a slim type front grille, and 4 x acoustic feet.
