

# Dynavoice Challenger S-5

The S-5 is the natural choice if you are putting together a Dynavoice Challenger home theatre system. It shares the same speaker and tweeter as the top of the M-65 floor standing model, and is a perfect timbre match with the rest of the Challenger series. The reflex ports are placed on the front to make it easy to place, and the overall performance also makes it perfect to use in a standalone stereo system.

Quantity	Sold in pair

**The reliable choice** – The Challenger series has a long tradition and has since the beginning been praised for its unprecedented price/performance ratio - a big, detailed and powerful sound at affordable prices.

**Versatile** – The S-5 is constructed to perform both as surround speakers in a home theatre system and standalone in a stereo setup. The width of the speakers also allows them to be used as front and surround speakers in a theatre system. Paired with the C-5 centre speaker and a Challenger subwoofer you will have a convenient 5.1 solution perfect for a small living room.

**Wall mount** –The S-5 has screws on the back (VESA 100) if you wish to hang it on the wall.
