

Dynavoice Definition DF-8

The Nordic Sound defined.

The DF-8 has been the critically acclaimed top model in the Definition series since 2011. The sturdy cabinet houses two 8" woofers and a 6,5" midrange, all three with bullet proof Kevlar for maximum performance. The top is crowned by a dual ribbon/soft dome tweeter that completes the powerful, balanced, detailed and natural sound image.

DF-8

Type	3-way bass reflex Floor standing speaker
Woofers	2x 8" Kevlar cone
Midrange	1x 6,5" Kevlar cone
Tweeter	1x Ribbon tweeter, 1x Soft dome tweeter
Sensitivity (1w/1m)	94dB
Power handling	200W (RMS)
Nominal impedance	6 Ohm
Frequency response	23Hz-32kHz
Crossover frequency	370Hz/3200Hz / 12800Hz
Dimensions (HxWxD) mm	1105 x 240 x 380
Weight kg (each)	28,1
Finish	Available in Black, Oak, White
Quantity	Sold in pair

A well-known winner – The DF-8 has gotten excellent reviews in HiFi magazines and by enthusiasts around the world since the first day of launch.

Special coating – The speaker has a bullet proof Kevlar coating that stiffens the cone while keeping the weight as low as possible. This adds stability and makes the speaker more responsive to micro details.

Dual tweeters – By using both a ribbon tweeter and a soft dome tweeter the Definition series reproduces wide and clear details in the higher frequencies.

Dynavoice X-Change – The Bi-wire, gold plated terminal has the Dynavoice X-change function. This lets you control the upper midrange frequencies, a great way to adjust the sound depending on the room and speaker placement.
